NOTICE OF DETERMINATION

IMPORTANT LEGAL RIGHTS & PROPERTY TAX INFORMATION ENCLOSED

The appraised value of property is based on the appropriate consideration of the approaches to value required by law. The Assessor has determined that your property should be included in the following category(ies). Residential property is valued by the market approach to value. Agricultural land value is determined by the earnings or productive capacity of the land, capitalized at a rate set by law. Producing mines are assessed at 25% of the gross proceeds or 100% of the net proceeds, whichever is greater. Oil and gas leaseholds and lands are assessed at 87.5% of the gross value of the oil and/or gas sold or transported from the premises on primary production; secondary production is valued at 75%. Possessory Interests - the property is valued in accordance with the procedures established in 39-1-103(17)(a), C.R.S. All other property, including vacant land, is valued by considering the cost, market, and income approaches.
